ASX

MITSUBISHI MOTORS

Bright spark. Bright Future.

At Mitsubishi Motors we've transformed the way we think. Our goal is to become a world leader in the reduction of CO_2 emissions on a global scale. That's why all our vehicles now have a smaller carbon footprint, be it through Auto Stop & Go technology, fuel efficient tyres, aerodynamics, cleaner engines, components made from recycled parts or the use of plant-based resins instead of plastics: indeed, the new ASX has it all. Mitsubishi have also released the first electric vehicle to the UK market and are currently developing new plug-in hybrid and flexible fuel vehicles. Some of our vehicles are already over 95% recyclable.

But at Mitsubishi Motors it's not just our cars that are greener. In our offices we're saving waste, power, packaging and becoming paper-free. And our manufacturing process is cleaner too – we employ sheep to keep the grass short; we've planted hundreds of thousands of trees and eliminated environmentally hazardous substances; our factories are switching to water-based paint and working towards zero landfill waste. And with high-efficiency automation, we're doing much of this with the lights turned off. Our philosophy is one of continual evolution and improvement. **We call this Intelligent Motion.**

INTELLIGENT MOTION

ASX

A perfect fit for life

The ASX is the brand new vehicle from Mitsubishi designed to fit your life like a glove. Individual, innovative, versatile, capable – it is the smart, efficient new compact crossover with a conscience; and, like so many Mitsubishi models before it, it is the vehicle which will define driving through the next decade. It comes with a choice of two lightweight, low-environmental impact engines (one petrol, one diesel) a choice of two- or all-wheel drive, top-of-the-class safety features, a truly impressive low-emissions package including stop-start technology, edgy styling, a nimble drive and plenty of room to swallow the average family whole. It's quiet on the road with well-weighted steering and a forgiving nature which soaks up the lumps and bumps with ease, and it packs a real punch when you ask it. It's the brand new car to accommodate your needs and reflect your values, and it will bring a little extra joy into your life along the way.

Low-environmental impact engines

Both engines feature Mitsubishi's clever MIVEC variable valve timing technology, which ensures better starting, reduced emissions at lower engine speeds and greater output power at higher ones. Furthermore, because the compression ratio can be set low – in fact, it's the lowest of any diesel-powered car – it also allows the engine to operate quietly at all speeds. This is the very first time that MIVEC has been incorporated into a diesel engine and it gives the 1.8 litre unit enormous punch – 147 bhp, in fact, and 221 lb.ft. at just 2000 rpm; it's more refined too, and economy is excellent, whilst the 1.6 litre petrol engine's CO_2 emissions of just 135 g/km are way ahead of its peers. The diesel engine is mated to a six-speed manual transmission and is available in both two- and all-wheel drive. The latter is a selectable, on-demand system, which means that even when four-wheel drive is selected it is only engaged when required – powering out of junctions or on roundabouts, for example. Of course it really comes into its own for towing, or when the climate or terrain presents you with something rather more challenging than the norm.

Intelligent motion on the road

ASX stands for Active Sports X-over, which is an excellent indication of just how much fun this vehicle is to drive. But the ASX has a very serious side, too: it's one of the vehicles which best illustrates Mitsubishi's Intelligent Motion philosophy on the road. In addition to the low-environmental impact engines – themselves designed to optimize economy and emissions by using low viscosity oil to reduce friction and incorporating a closed flow particulate filter on the diesel engine – the ASX features many other technological innovations with an environmental mission. These include advanced alternator control which increases battery charging when braking and reduces it during idling, accelerating or cruising, easing the load on the engine for improved fuel consumption; low rolling resistance tyres, which combine with the ASX's excellent aerodynamics to reduce drag; electric, rather than hydraulic power steering; and Auto Stop & Go, the stop-start system which shuts down the engine when at a standstill and instantly re-starts it when you depress the clutch pedal. For even greater efficiency a gear shift indicator, positioned directly in your line of sight between the speedometer and the rev counter, recommends the best shift timing for the prevailing driving conditions. Put together, all this makes the ASX a very clever car indeed.

Just the right style

Sophisticatedly monochromatic, employing a contrasting use of textures and materials for real visual impact; ergonomically designed and generous with equipment, the ASX exhibits considerable style. Even entry-level models come with electric windows, manual air conditioning, seven airbags and stability and traction control, whilst those further up the range include climate control air conditioning, cruise control, rain and dusk sensors, satellite navigation, a Bluetooth hands-free 'phone connection, privacy glass and black leather upholstery.

Just the right substance

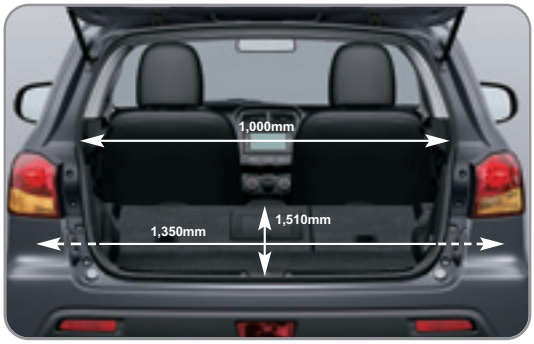
The ASX's sharp styling and short overhangs mean that it shoehorns a generous wheelbase into a compact footprint, giving you the very best of both worlds – loads of elbow, leg and head-room inside a vehicle which is just the right size for tackling our overcrowded urban roads. Its tall profile allows even the gangliest teenagers plenty of room in the back and makes the average hatchback seem uncomfortably snug by comparison. Indeed, it's extremely easy to get comfortable in the ASX: the steering wheel, leather wrapped on most models, adjusts for both rake and reach; the lighting is well planned, there are plenty of pockets, cup-holders and convenience hooks and the overall finish combines quality fabrics with pleasingly soft plastics. The seats, heated in front on all bar the entry level model, are both comfortable and supportive and the size and positioning of the headrests are specifically designed to provide more support and reduce whiplash in the event of a collision.

The high point

Taller than average dimensions combined with a sloping bonnet provide the slightly elevated view of the road characteristic of an SUV; the raised hip point also makes entrance and exits easier and long journeys more comfortable.

Just the right use of space

Decades of experience in designing multi-purpose, seven-seater vehicles, and as one of the very first manufacturers to introduce increased height into compact cars, Mitsubishi are experts in maximising the use of space: the ASX is the epitome of this expertise. It has a capacious, 442 litre boot with wide opening tailgate and low floor for easy access, as well as a large underfloor tray, a 60:40 split rear bench seat with an adjustable back rest, armrest with “ski slot” and an easy-fold to flat facility so that you have the versatility to match your ever-changing needs.

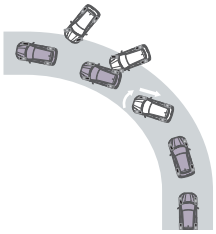


Five stars for safety

Benefitting from the lessons learned in many of Mitsubishi's larger vehicles, the ASX enjoys a highly rigid body structure which results in improved driving dynamics, greater comfort and, of course, increased safety. It uses Mitsubishi's proprietary RISE (Reinforced Impact Safety Evolution) system to integrate and interconnect the structural elements which provide a dramatic advance in multi-directional impact safety performance, dispersing energy loads during front, side and rear crashes and controlling distortion. These include a reinforced girdle body construction, the increased use of high-tensile steel (which also aids in the reduction of weight) and numerous crush box and energy absorbing structures. Other passive safety features include a new brake pedal push-prevention system designed to reduce injuries to the driver's legs. In conjunction with the many active safety features incorporated into the ASX, the result is a coveted top, five-star rating in the independent Euro NCAP safety tests.

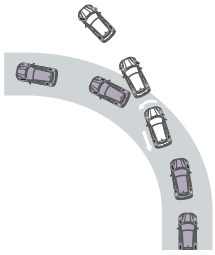
Active Stability Control (ASC)

The Active Stability Control system uses onboard sensors to analyse the vehicle's motion and identify lateral wheel slippage. By governing engine output and applying braking power to the appropriate wheels, ASC helps to maintain stability and control.



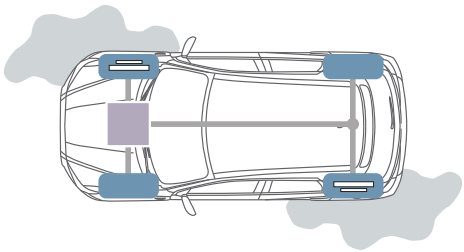
Lateral rear-wheel slippage

Braking force is applied to the outer front wheel to prevent spin-out.



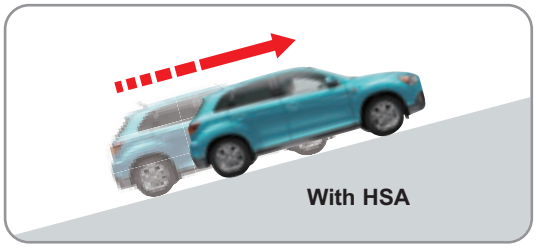
Lateral front-wheel slippage

Braking force is applied to the inner rear wheel to prevent front-end drift.



Traction Control Function

When wheel spin is detected, engine output is governed and braking force is applied to the spinning wheels to prevent driving torque loss ensuring smooth starts and linear acceleration.



So much more than ABS

The ASX is a clever car. Take the brakes, for example: ABS of course, complete with EBD which automatically adjusts the brake effort to individual wheels to accommodate the location of weight. Then there is Brake Assist, providing power assistance to boost braking in an emergency situation, an Emergency Stop signal System, which automatically flashes the hazard warning lights at double speed to warn vehicles around you in such a situation, and Hill Start Assist, which maintains the braking force on a hill for about two seconds until the accelerator is applied.

Safety in the bag

All models feature seven airbags, including dual front, side and driver's knee airbags to provide increased safety in the front, whilst curtain airbags provide protection in the event of a side collision. These work in conjunction with specially designed seats and headrests which allow the occupants' bodies to sink into the seats more quickly, thus providing extra support to the head and back and so aiding in the reduction of whiplash.

Enjoy life with the ASX

The ASX is practical yet fun, fast yet frugal. It's easy to drive with willing engines, a well-sorted chassis and clever brakes; easy to park with parking sensors and a rear view camera*, and easy to live with, thanks in part to Mitsubishi's ETACS system which controls all those small but significant details which highlight the difference between a good car and a great one. Little things like headlights which stay on for a pre-programmable duration to light your way home; a highly intelligent wash/wipe system which seems to think for itself; and side mirrors which can automatically retract when you lock the doors, ending those anonymously broken mirrors forever. The ASX goes about its business quietly thanks to clever noise and vibration isolation, and it's a Mitsubishi so you can expect it to continue doing so day, after day, after day. Indeed, it will bring a smile to your face and keep it there. You'll keep smiling when it comes to running costs too, for a Mitsubishi Service Plan, purchased at the same time as your ASX, is available to cover the first three scheduled services. This ensures that you can enjoy skilled servicing, using only genuine parts and Mitsubishi diagnostic equipment, for a modest sum. The Mitsubishi Service Plan can be included in your vehicle's finance and transferred to a new owner when you sell.

*Selected models only

Warranty, insurance and MAP

All new ASXs come with a comprehensive three-year unlimited mileage warranty which also includes the Mitsubishi Assistance Package (MAP). Breakdown, accident, theft, vandalism, whatever the reason you need homestart or roadside assistance you're covered 24/7 in over 30 countries throughout Europe. Mitsubishi Motors also offer superior insurance cover which is specifically designed for Mitsubishi vehicles and uses only genuine parts and approved repair centres. And to smooth your progress through an insurance claim, no matter which insurer you use, Mitsubishi Accident Aftercare will handle everything on your behalf – no hassle, no claim forms, no running about, and absolutely no cost to you. It's all part of the special service you get when you buy a Mitsubishi.

Mitsubishi Motor Insurance

Mitsubishi Accident AfterCare

ASX 2

1.6 2WD Manual

Key features

- Auto Stop & Go (AS&G)
- Anti-lock Braking System with EBD, ESS & BA
- Mitsubishi Active Stability and Traction Control (M-ASTC)
- Hill Start Assist
- Dual front, side, curtain and driver's knee SRS airbags
- Alarm with keyless entry
- 16" alloy wheels
- Air conditioning – manual
- Electric windows and heated folding door mirrors
- Steering wheel tilt and reach adjustments
- Height-adjustable driver's seat
- Multi-Information Display (MID)
- Radio/CD/MP3 player with 4 speakers
- Audio jack

ASX 3

1.6 2WD Manual
1.8 DI-D 2WD Manual
1.8 DI-D 4WD Manual

Key features

Specification as ASX 2 (2WD) plus:

- 17" alloy wheels
- Privacy glass
- Front fog lamps
- Rear parking sensors
- Front grille chrome surround
- Side window chrome beltline
- Keyless operation system with engine start button
- Air conditioning – climate control
- Cruise control
- Heated front seats
- Leather steering wheel with remote audio control
- Leather gearshift knob
- Hi-contrast meter dials with colour LCD MID
- Bluetooth hands-free telephone kit
- Radio/CD/MP3 player with 6 speakers
- Auto-light control
- Rain sensor

4WD model:

- On-demand 4WD with rotary drive mode selector

ASX 4

1.6 2WD Manual
1.8 DI-D 2WD Manual
1.8 DI-D 4WD Manual

Key features

Specification as ASX 3 plus:

- Leather seat trim
- Kenwood satellite navigation system
- Reversing camera
- iPod control

4WD model:

- On-demand 4WD with rotary drive mode selector

Accessorize your ASX

Based on Mitsubishi's Concept-cX show car the ASX is a stunning looking crossover and you can keep it in showroom-perfect condition with the special Protection Pack, comprising of a mat set, mud flaps, boot liner and protection plates for those areas which suffer the most. Overleaf you will find further approved accessories to make the ASX an even more perfect fit for your lifestyle, all of which benefit from the same excellent warranty as the vehicle itself if fitted when new. So before you place your order, consider carefully: talk to your dealer or visit **www.mitsubishi-accessories.co.uk** and make sure you make the most of your choice.

1. Front mudflaps
2. Rear mudflaps
3. Front door entry guards
4. Boot tray
5. Rear bumper top protection plate
6. Front textile mat set, Classic (fitted)
7. Full textile mat set, Classic

8. Chrome exhaust finisher (ASX 2)
9. Rear door entry guards
10. Front wind deflectors
11. Front fog lamps with chrome bezel (ASX 2)
12. Rear dog guard
13. Tow bar, detachable
14. Tow bar (detached – socket can be rotated to hide)

15. Leather/alloy shift knob and leather/alloy handbrake lever
16. Child safety seat “Baby-Safe Plus”
17. Child safety seat “Duo Plus”
18. Roof carrier (cross rails)
19. Luggage carrier
20. Drop-down DVD system

MITSUBISHI MOTORS RECYCLING

We all have a duty to protect the environment. After a long working life we will take back any Mitsubishi Motors vehicle originally sold by The Colt Car Company Ltd. and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles sold by The Colt Car Company Ltd., irrespective of date of sale, will be taken back free of charge from the last owner, at one of the designated take-back points, provided the vehicle contains all major components and is free of waste.

For further information please visit www.cartakeback.com, email info@cartakeback.com or call the Cartakeback info-line on 0845 257 32 33.

The specification of the vehicles illustrated in this publication may not be applicable to the UK market, furthermore some vehicle illustrations may include accessory items which are not part of UK standard specification. However, every effort has been made to ensure that the written information was accurate, up-to-date and consistent with UK specification at the time of going to press. The right is reserved to change specification, features and prices without prior notice. To avoid any misunderstandings, your Mitsubishi Motors dealer will advise of any alterations made since the date of issue of this brochure. No part of this publication may be reproduced in any form or by any means, without the prior written permission of The Colt Car Company Limited.
